Forecast For Wales
Issued by Met Office Exeter
at 1600 on Monday 26 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Turning more changeable, with frequent showers.

This Evening and Tonight:
The evening kicks off with a little thin cloud, but into the night this begins to thicken to give a cloudy night. Northernmost areas begin to see some patchy rain into the earlier hours. Minimum temperature 4 deg C (39 deg F).

Tuesday:
A cloudy day with scattered showers in the morning. These becoming more frequent, organised and at times heavy during the afternoon and into the night. Light winds, strengthening later. Maximum temperature 14 deg C (57 deg F).

Outlook for Wednesday to Friday:
Cloudy with frequent clusters of showers Wednesday. Similar into Thursday and Friday, but with showers becoming more scattered and infrequent. Light winds throughout.
